

Isoplus Pump Primer

PRIMER FOR LUBRICATION OF CONCRETE PUMP AND PIPELINE

Description

Isoplus Pump Primer is a ready-to-use dry powder slurry pouch designed for various applications, such as concrete pump priming and pipeline lubrication. This water-soluble pouch can be effortlessly dissolved either in a bucket or directly in the pump hopper. It acts as a cost-effective substitute for expensive pre-mixed priming grout, effectively enhancing the pumpability range of concrete pump pipelines. This innovation leads to a reduction in pump horsepower requirements and proves effective for Boom Pressure, accommodating delivery pipes ranging from 50 mm to 150 mm in diameter. By significantly curbing diesel expenses and lowering the likelihood of blockages.

Application Instructions

One pack of Isoplus Pump Primer (200gm) can be mixed with 75 litres of water in drum or in a hopper up to glossy mix achieved; this mixture has to be used as slurry before concreting.

Dosage : One pack of Isoplus pump primer can replace up to 3- bag of cement that can be used to prime 50 meter & above pipe line of concrete pump

Advantages

- Easy to apply, solvent free, one component system.
- Cheap and cost effective
- Isoplus pump primer replaces the 3-bags of cement & hassle of lifting them into the hopper or drum
- Reduces friction and blockages in concrete pipeline
- Very small quantity is required for priming
- Reduces priming time on site
- Non reactive with concrete

Properties

Appearance : White powder

Shelf Life : 24 Months

Storage : store in cool dry place

Health and Safety : Non toxic and Non flammable

Dosage : 200gms for 75L of water for 50m pipeline

Packaging : 200 gms per pack
